How do you travel on 600/700 North?

	Daily	Weekly	Monthly	A few times
Walking	63	60	36	60
Biking	22	43	32	54
Driving	206	63	22	7
Public Transit (Bus Route 205)	9	12	12	38
Other	3	3	3	13
(Scooter, skateboard, etc.)	8	10	8	23
Mobility device (cane, walker, wheelchair, etc.)	2	1	1	3

Do you ever avoid 600/700 North? Why?

“Yes. The cars move very fast and I don't feel comfortable biking there. On the weekends, there are soccer games and many cars park on the side of the road and I am afraid of getting hit by a car parking/coming out/opening doors.”

“Never, easy access love it the way it is.”

“Yes, it is a road I often will use, but it is not the most comfortable due to the speed of cars and amount of space for cars only.”

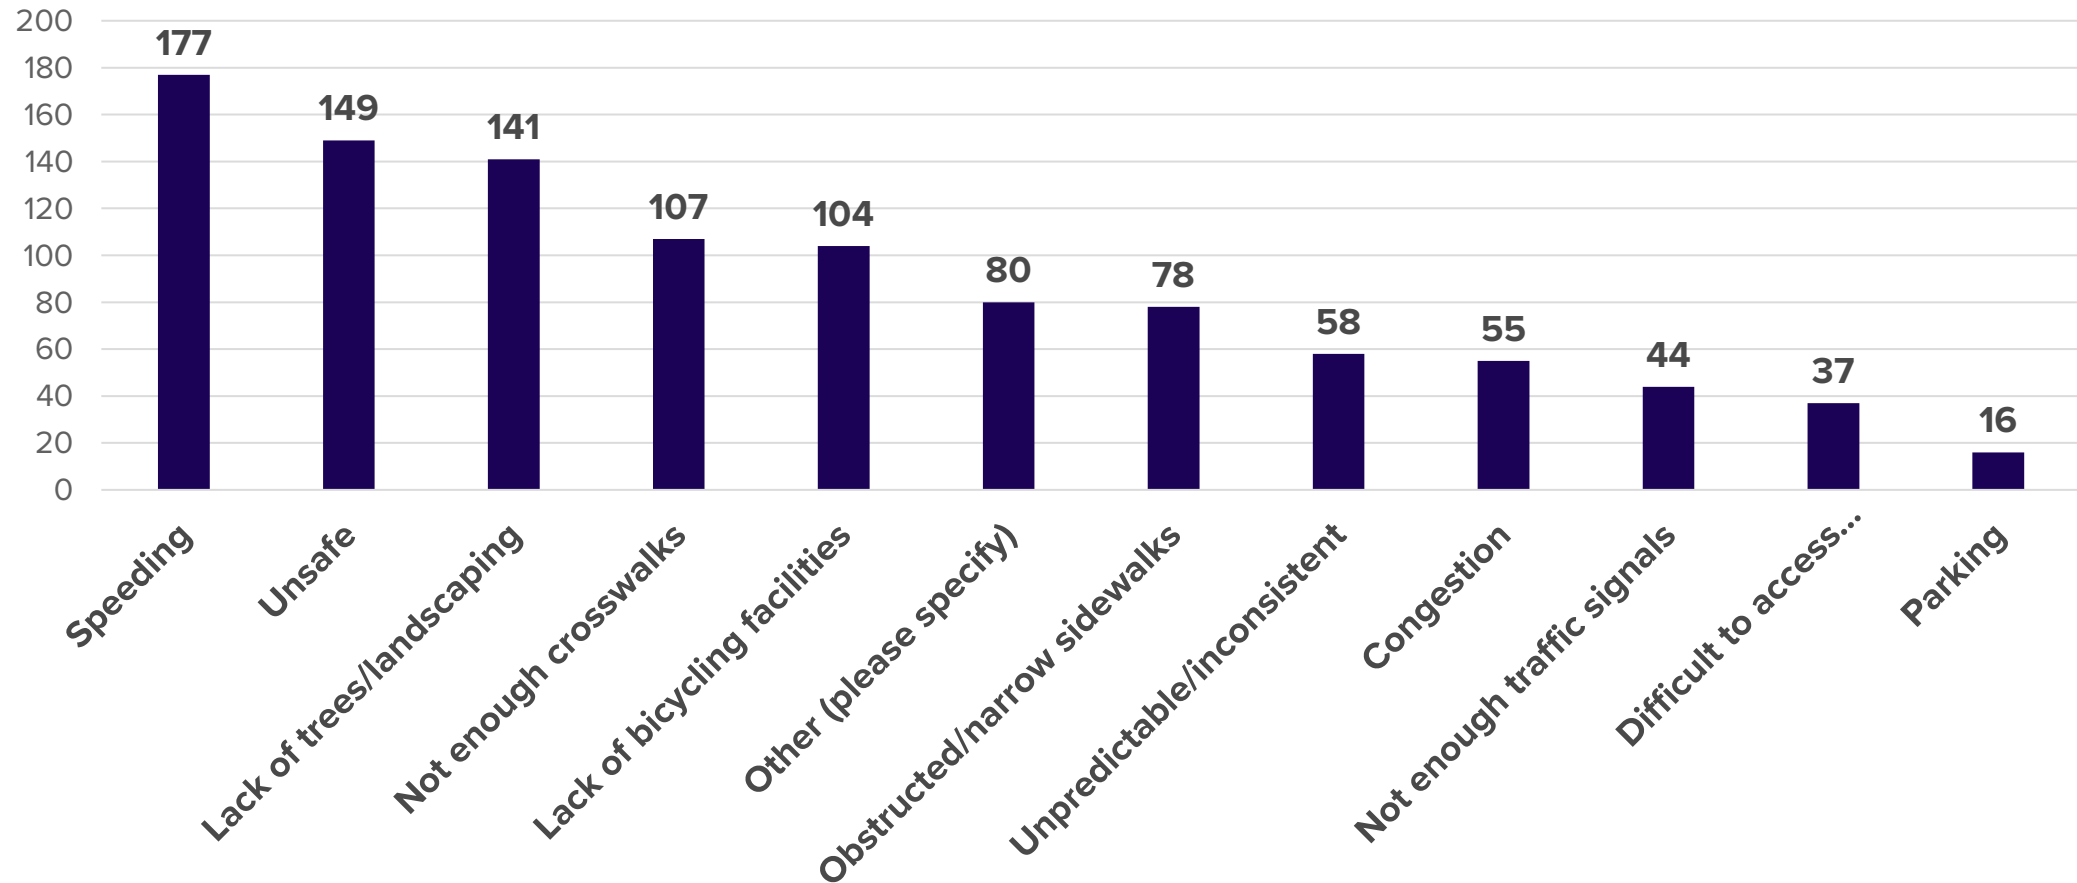

Do you ever avoid 600/700 North? Why?

*“I generally **can't** because my family lives on the other side, and the freeway cuts off any other options. But I do think **it's too wide**, and as a bike commuter **I hate having to cross it**. I would **avoid it as it is if I could.**”*

“Vivo en el vecindario de Fairpark y manejo en esta avenida frecuentemente. Nunca en ando en bicicleta sobre de ella ya que es peligrosa. Tampoco me gusta caminar sobre la avenida cuando saco a pasear a mi perro. El cruzar la avenida hacia Rose Park como peatón puede ser estresante.”

***Only** when **construction restricts travel to one lane** or during the fair when traffic is ridiculously backed up. Fortunately, those are rare occurrences. Can you imagine what a **nightmare** it would be if the idiots in the City government actually **reduced travel to one lane permanently**?!*

What are the biggest issues with 600/700 North? (Select all that apply)

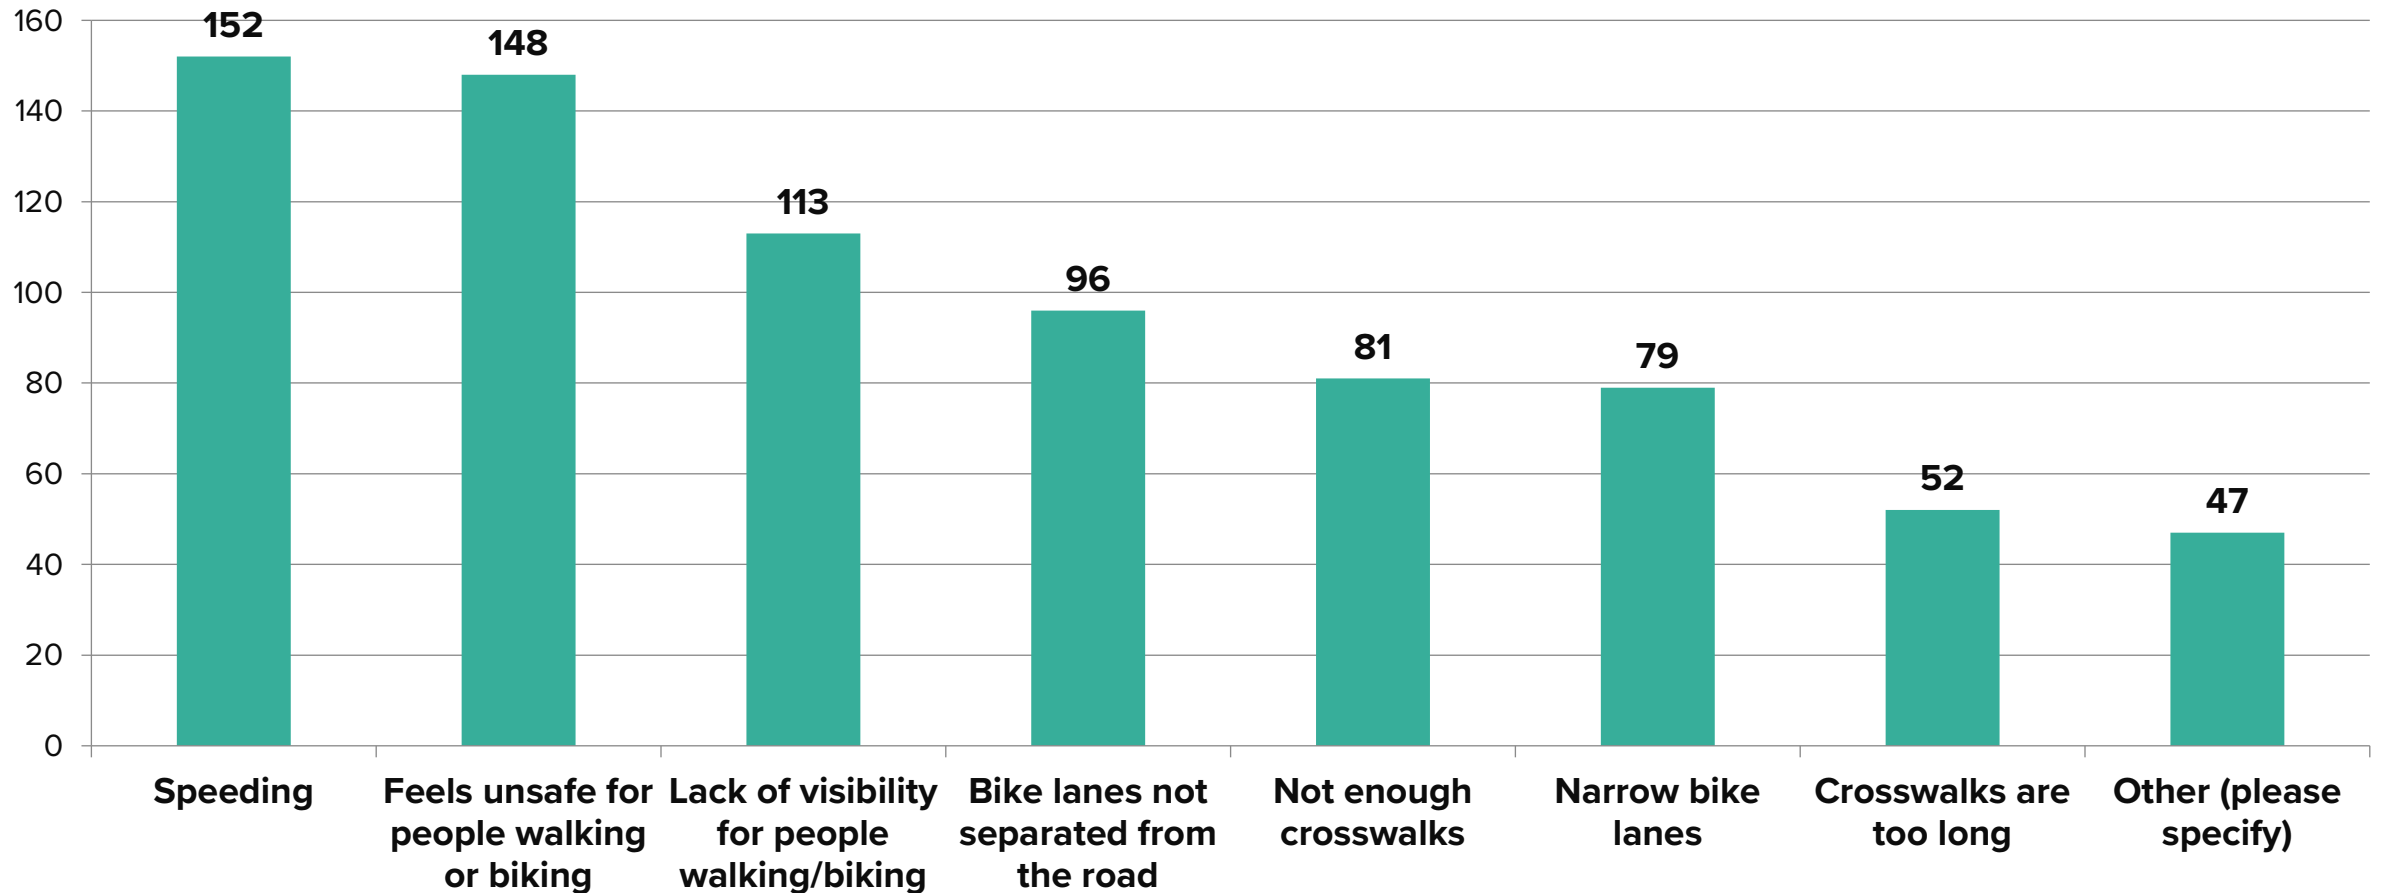

What are the biggest issues with 600/700 North? (Other please specify)

*“Rough pavement, **potholes**, people **speeding** off of the freeway exits, how narrow/uncomfortable the center lane is near Redwood Road, **confusion about which driveways to use** for businesses in this area.”*

*“The road is horrible, and the extra wide streets in Fairpark could all use center **medians with green/ tree areas**. We **DONT** need anymore concrete.”*

*“Too many **homeless** loitering and littering.”*

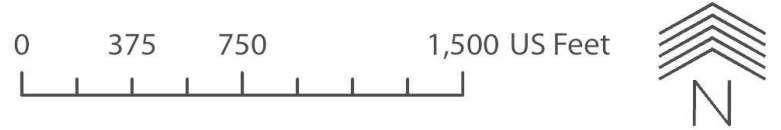

If you selected unsafe, please describe what you feel is unsafe.

● Problem Area

0 375 750 1,500 US Feet

What is the "biggest problem" at the point you selected on the map?

*"I'm the principal at Backman Elementary. We have a metal fence between our school's parking lot and 600/700 North that has been run into and partially destroyed at that curvature in the road three times just this past school year. **People tend to go too fast** in that section."*

*"This area is extremely **unsafe** for **pedestrians** and **cyclists** because of **high car speeds** and **drivers that frequently run lights.**"*

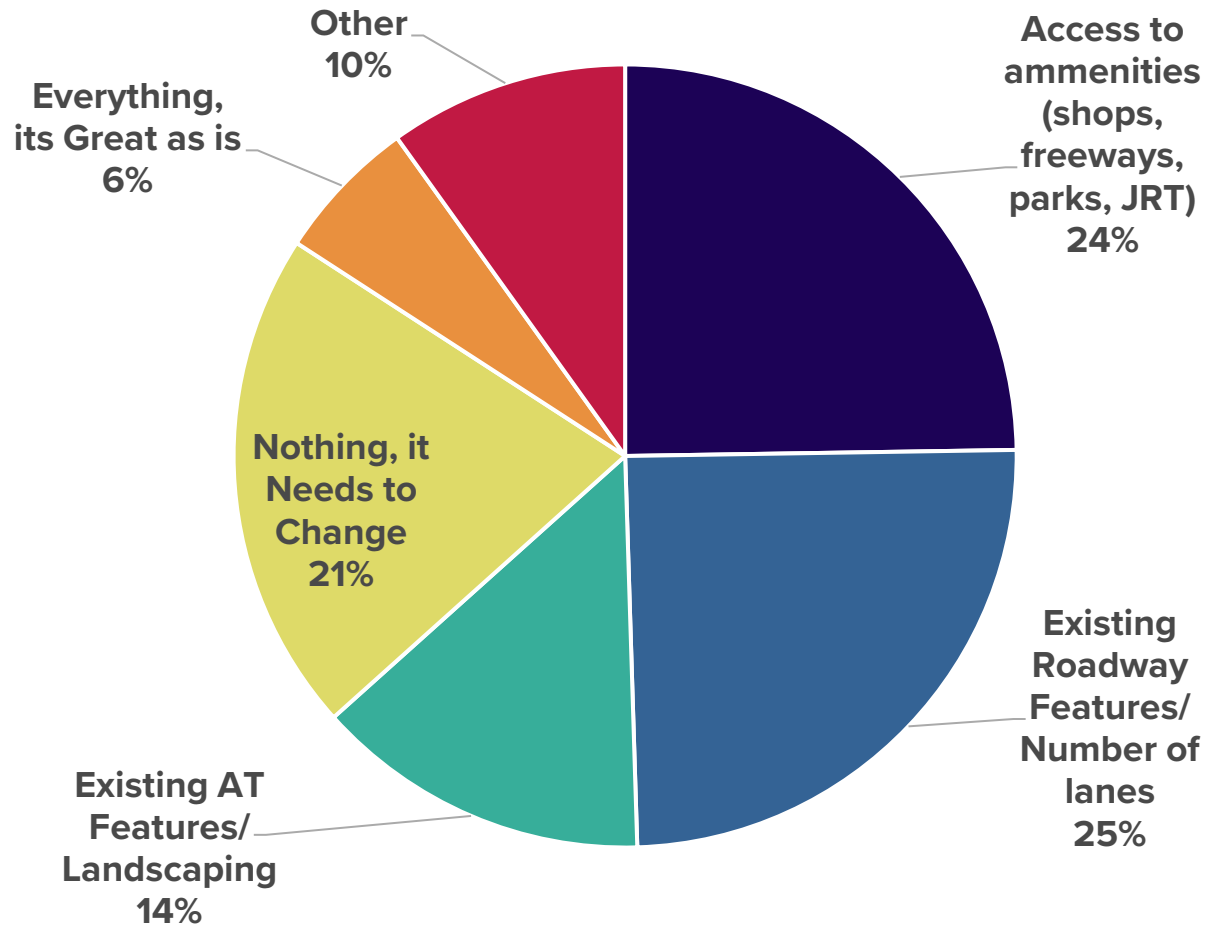

What is the "biggest problem" at the point you selected on the map?

*"Heading east towards downtown, I'm **constantly worried** about getting **t-boned** from cars travel through both the 900 and 1000 intersections."*

*"The biggest problem is not just a single point on a map. I appreciate the opportunity to contribute some thoughts, but the 700/600 N street is historically plagued with **excessive high-speed travel**."*

*"The **transition from freeway traffic to a residential** neighborhood is **abrupt**. Improvements made 5-6 years ago have helped but it is still an area where **cars and people do not mix well**."*

What do you like about 600/700 North that should stay the same?

*“I do enjoy that it **connects a lot** of residential areas to diverse restaurants, **provides access** to downtown/capitol hill, and links the area to the Jordan river trail.”*

*“**Access to businesses** are easy, access to the river trail is easy”*

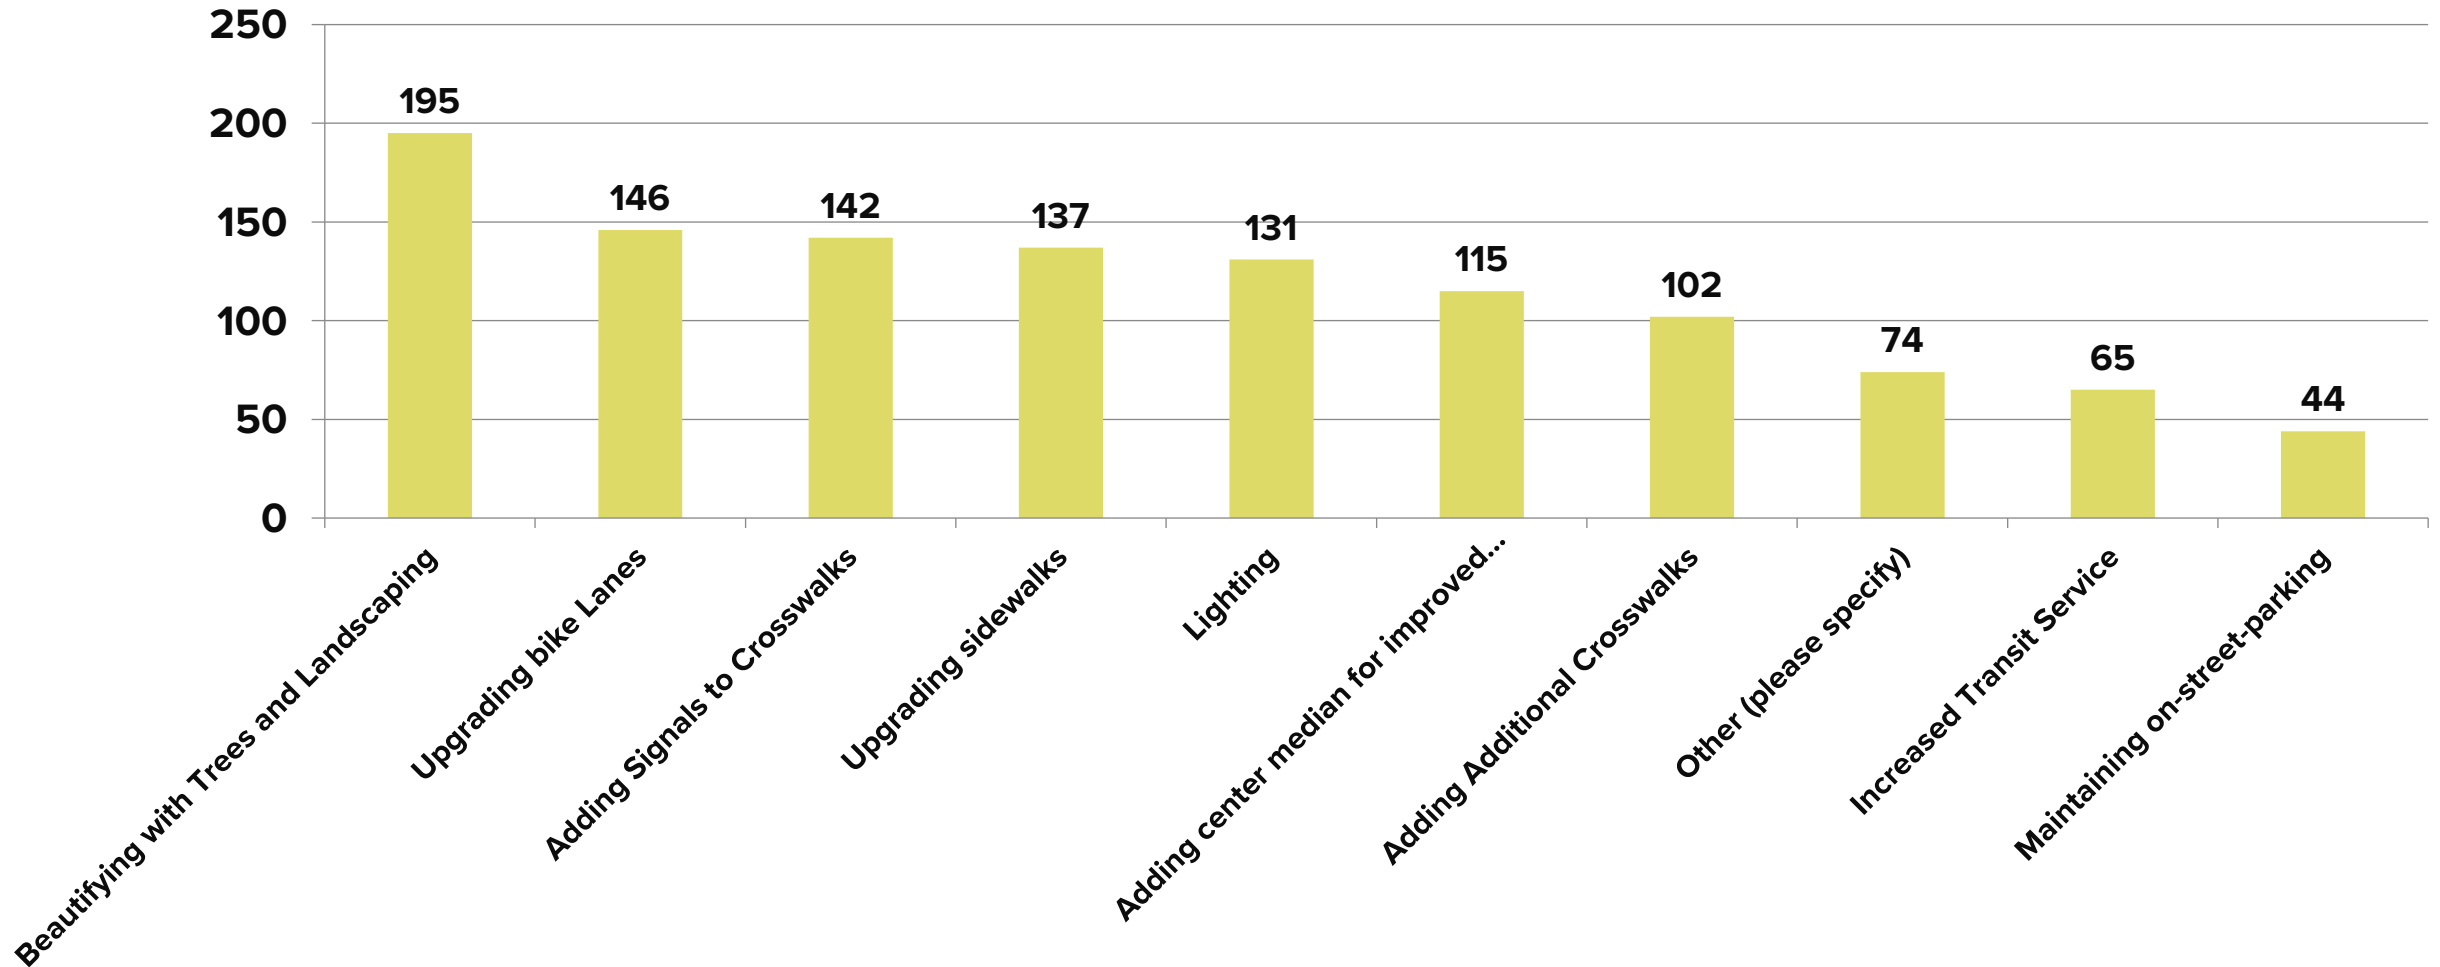

What do you like about 600/700 North that should stay the same?

*I would like to see this street completely transformed. But, I do have concerns that it may encourage **more through traffic on residential streets** adjacent to this road..”*

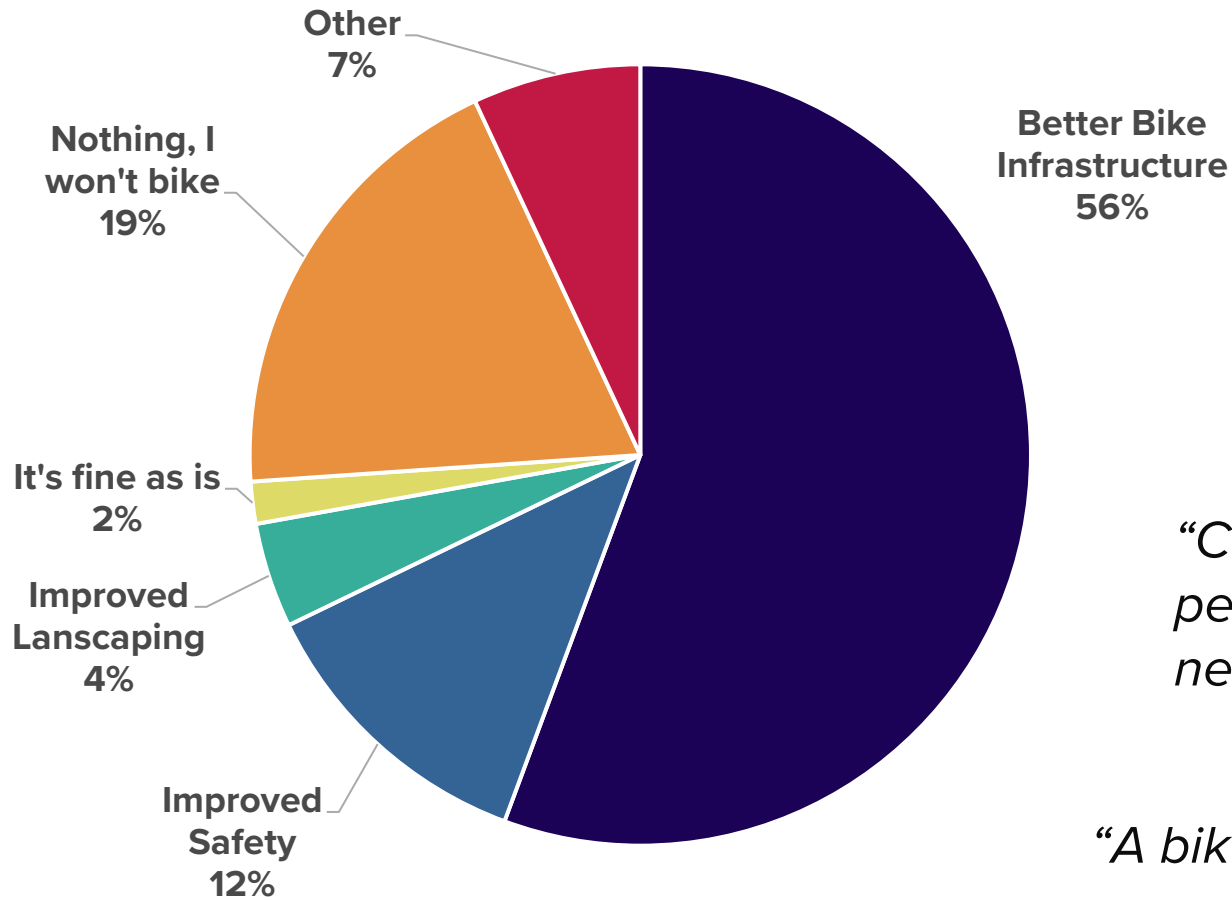

*“I like the way it is currently set up, with the exception being a few **more crosswalks needed** with signals. I think the biggest issue that needs addressed is it **needs repaved** desperately as it is full of potholes!”*

“Set back sidewalk”

What improvements would you like to see on 600/700 North?

What would make you want to BIKE on 600/700 North?

*“There’s plenty of other streets that run parallel that could be a bike corridor, we don’t need to **prioritize** yet another street that is a **large traffic corridor for bikes** that wont or don’t use bike lanes. **500 and 300 north** are much **better bike alternatives.**”*

“Complete separation from cars. I don't trust people coming off I-15 to drive like they're in a neighborhood. ”

“A bike lane separated from the road.”

What would make you want to BIKE on 600/700 North?

“Nothing I already do with no problems!!!”

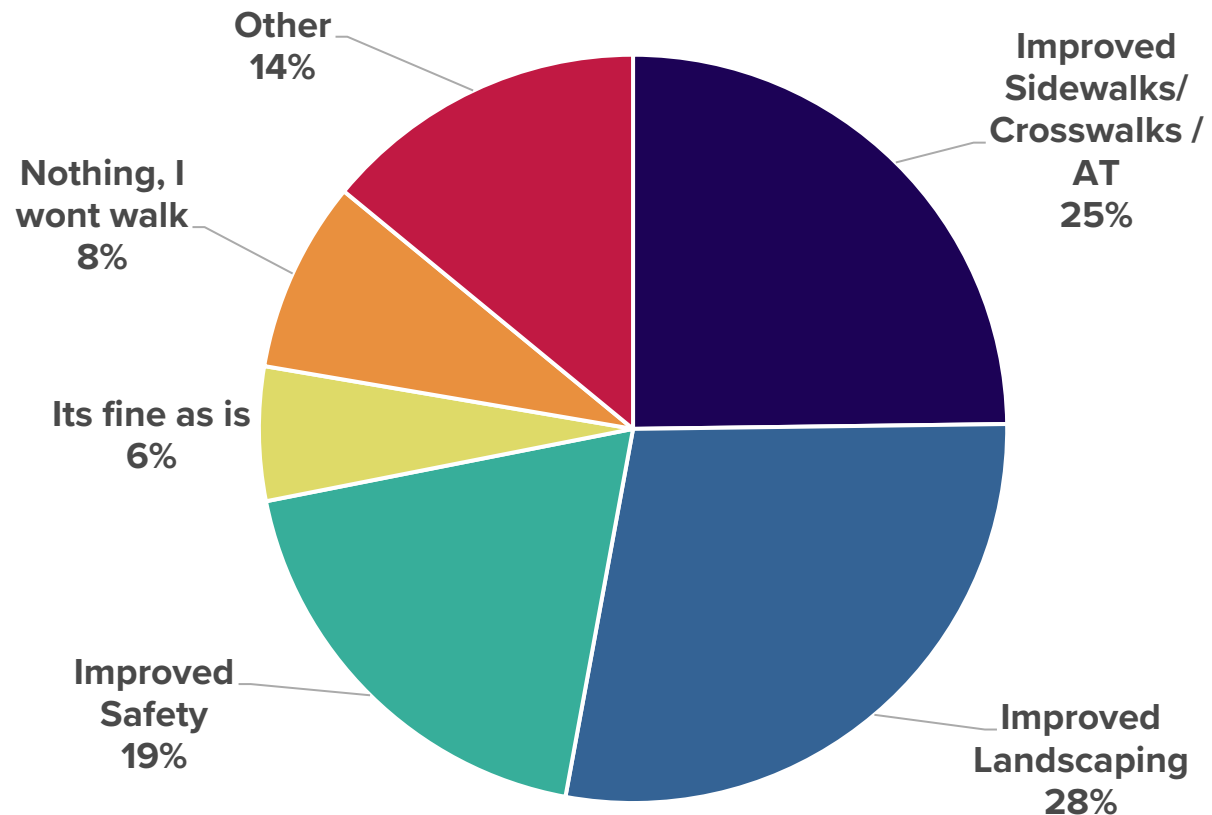

*“Nothing! The Salt Lake staff are SO out of touch with the **predominant mode of travel** for the vast majority of **working class folks**.”*

“Shade, smoother roads, better lights.”

“Better bike lanes, clear of debris.”

“I bike it every so often...the bike lanes could be a bit wider”

What would make you want to WALK on 600/700 North?

“Better sidewalks and more trees.”

Eliminating the homeless camps and loiterers.

“Lower speed limits.”

“Better lighting, flatter/better maintained sidewalks, crosswalk signals.”

“It’s fine as is. I do not think this needs to change.”

Please share any additional thoughts/comments you have about 600/700 North (optional).

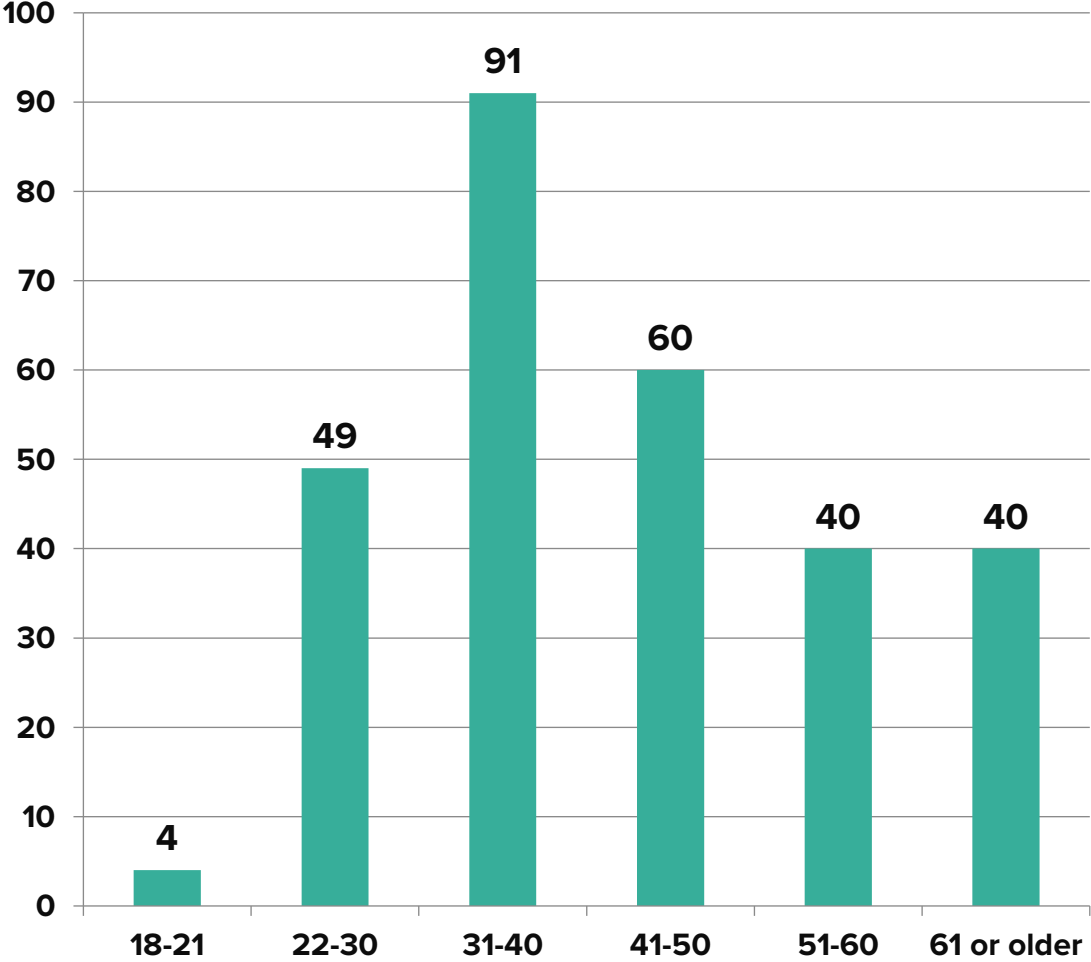

*“I think the biggest problem is **speeding cars**...The **bus stops could use upgrades**, plus the drainage and curbs around those stops. It can be really difficult getting onto a bus from some of the stops.*”

“Please do not make this a 1 lane road, or reduce speeds, it will just push more traffic into the neighborhood streets.”

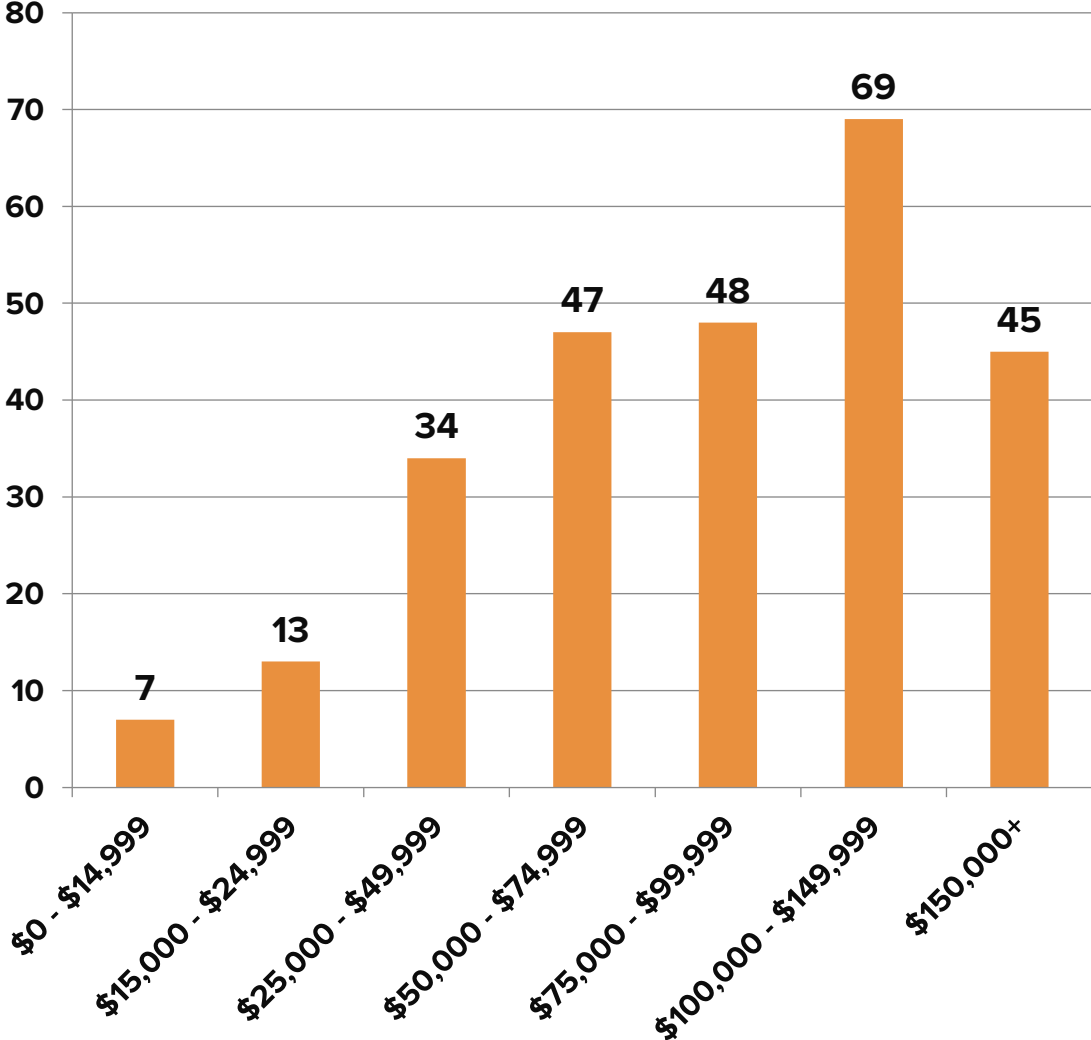

*“The biggest and most critical improvements in my opinion that could be made to this street are to **reduce speeds of drivers**, reduce or eliminate heavy duty truck traffic, and **create more safe crossings for cyclists and pedestrians**...While protected bike lanes would be a “nice to have” they aren’t a priority for me as I am more likely to ride on slower speed residential streets nearby.”*
